The Better Practice Project is very pleased to offer this thought provoking workshop.

For many of us our place of work is someone's home. Consequently relationships develop in various forms and challenges emerge. This workshop will explore the concept of "Right Relationship", as defined by Michael Kendrick.

Outcomes from this training include;

- ✓ Demonstrate an understanding of "right relationship"
- ✓ Identify the impact of the home as the workplace
- ✓ Understand what constitutes professional behaviour and a formal relationship
- ✓ Clarify the difference between "friend" and "friendly"
- ✓ Using mindfulness to reduce negative experiences of the vulnerable/older person
